Pediatric Reference

- Guide to Growth & Development

Flash Cards

- Pharm in a Flash
- Building Blocks of Growth

Recommendations for Practice

The clinical tools and learning resources developed by APEA provide evidence-based support for NP practice. Whether you are seeking a mobile reference tool, a billing and coding resource, or contact hours, APEA has what you need!

Billing & Coding Resources

- Guide to Billing & Coding pocket reference
- Guide to Reimbursement video series

Contact Hours

- On Demand Lectures
- CE Library
- CareOnPoint
- Live Webinars

Evidence-Based Guidelines

- *Clinical Guidelines in Primary Care*
- CareOnPoint

Mobile Reference Tool

- CareOnPoint

Pediatric Resources

- Guide to Growth & Development
- Pediatric Antibiotic Guide

Prescribing Tools

- Amelie's Antibiotic Cards
- Topical Steroid Prescribing Guide
- Pediatric Antibiotic Guide

We Guarantee Your Success!

The APEA **Live Review Course**, delivered via live webinar or on site, is so effective that more than 99% of students who attend one pass the certification exam on their first try. We are so confident in our teaching methods that if you are not successful on your first attempt, we will give you a repeat live review course, or access to an online review course, for **FREE**.

Since the first APEA review course in 1997, students have been raving about its effectiveness. Check out our five-star ratings on the testimonial page at www.apea.com.

Our Guarantee Is Unmatched!

Two Simple Steps

1. In the rare event that you are unsuccessful, let us know.
2. Register for a **FREE** review course within 12 months.

Live Review Courses

The most engaging and informative live review courses are delivered by APEA via live webinar or on site!

Never wonder about who will present the material: Every APEA course is presented by Amelie Hollier, DNP, FNP-BC, FAANP, and Mimi Secor, DNP, FNP-BC, FAANP, FAAN.

- Greater than 99% pass rate
- Consistent five-star ratings
- Detailed Course Manual
- Exclusive discounts on APEA products
- 200 practice questions on review course content
- Multiple FNP and AGNP Live Webinar Courses per year, plus Live Onsite Courses in select cities

Review Course Schedule:

Can't Make it to a Live Review Course?

On Demand Options Available 24/7!

APEA On Demand Review Courses put you in control. Select the delivery method that works best for you: video, audio or MP3 player. Customize your learning by accessing the content at your convenience.

On Demand Review Courses provide 100% of the content and supplemental materials received at a Live Review Course. You get all the key ingredients for success—on your personal schedule!

You Choose!

- MP3 Player
- Audio
- Video

Need Contact Hours?

Find Them in the APEA CE Library

Earn contact hours conveniently and cost effectively. Everything you need is housed in the APEA CE Library. Whether you prefer learning from written material, video presentations, or online resources, we have what you need!

Contact Hour Choices

- **Clinical Briefs:** Concise articles on the most commonly encountered primary care diagnoses
- **Videos/Audio:** Lecture topics include X-ray interpretation, laboratory analysis, prescribing strategies, pain management, and much more!
- **CareOnPoint:** Continually updated peer-reviewed content presented in a mobile platform

Find the APEA CE Library at www.apea.com/contacthours

The Ultimate Reference Book for Primary Care

From the classroom to clinical rotations and into practice, *Clinical Guidelines in Primary Care* is the resource nurse practitioners reach for again and again.

- Concise presentation of more than 300 diagnoses
- Bulleted format for quick reference
- Reflects the order of the patient workup
- Detailed prescribing information
- Also available as a mobile reference: CareOnPoint

Put the Power in Your Hands!

CareOnPoint puts evidence-based primary care guidance at your fingertips!

Whether you're in the exam room with a patient or charting at your desk, CareOnPoint serves up the details you need to perform an appropriate assessment, order diagnostic tests, and prescribe the most appropriate therapy. And, you earn contact hours as you use it!

- Mobile reference tool available anywhere you have an internet connection
- Continually updated with the newest evidence-based guidelines
- Contains anatomical illustrations and images
- Earn contact hours
- Access established by annual subscription

MyQBank

STUDY QUESTIONS

The Key to Preparation?

Practice, Practice, Practice

MyQBank provides thousands of online study questions designed to prepare you for exam day!

Our multiple subscription options allow you to customize the online study approach that is right for you. With any subscription plan, you receive:

- Unlimited access to questions during your subscription period
- Ability to randomize questions or select by subject
- Detailed rationales that build your knowledge base
- Ability to view and answer questions in exam or tutor modes
- Data reports that allow you to track your progress and fine-tune your studying

Select From Four Banks: Assessment, Pathophysiology, Prescribing, or Management. Combine banks for a customized approach!

Practice Questions Delivered in Print!

For students who prefer to work with study questions in book form, APEA publishes *Family and Adult-Gero Certification Questions*. Each book contains:

- More than 1,200 multiple choice, competency-based questions focused on the assessment and management of patients
- Questions reflecting the testing domains on the AANP and ANCC exams for FNP and AGNP candidates
- Answers with detailed rationales that build your knowledge base and understanding
- Chapters organized according to body system
- Three 150-question practice exams for FNP candidates
- Three 150-question practice exams for AGNP candidates
- Bonus question sets on pediatrics and geriatrics

Are You Ready?

Take an APEA Predictor Exam and Find Out!

APEA has developed predictive tests to assess exam readiness for FNP and AGNP certification. APEA **Predictor Exams** have been studied and proven reliable and valid for predicting success on the AANP and ANCC exams. A score of 70% or higher predicts that you are highly likely to be successful on your first attempt at certification.

Every predictor exam is unique. Each one is randomly generated from a robust database of more than 1,000 possible questions.

Your results report details your performance in the knowledge areas and testing domains tested on the AANP and ANCC exams. Use these results to customize and focus your final study plan!

Family Practice Includes Children ...

Do You Feel Comfortable With Your Pediatric Knowledge?

APEA publishes three resources focused on the care of children in primary care settings:

Building Blocks Flash Cards

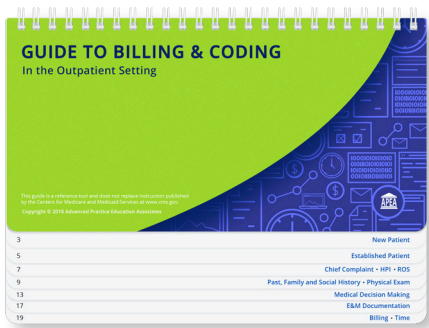

Color-coded flash cards focused on child growth and development

Building Blocks Guide to Growth & Development

Spiral-bound cardstock reference for the exam room that is focused on milestones, vital signs, reflexes, and developmental theories

Pediatric Antibiotic Guide

Pocket-sized, spiral-bound card set to guide the prescribing of antimicrobials for infants and children

Billing & Coding Is Your Responsibility!

Accurate reimbursement for the healthcare services you provide is a shared responsibility. You may not complete and send the billing forms, but you do determine the complexity of the visit and which evaluation and management codes should be applied. The foundation for billing is laid by you.

APEA offers two essential resources to bolster the knowledge and skills necessary to lay this foundation.

- **Guide to Billing & Coding in the Outpatient Setting** is a spiral- bound reference for the exam room and office. It's portable and packed with the key points you need to complete your documentation.
- **NP Guide to Coding & Reimbursement** is a three-part video series providing detailed information (and 3.5 contact hours!) about how to document and code correctly. Note: Purchase of video access includes the Guide to Billing & Coding cards.

Pocket Prescribing Tools

Get on-the-go guidance with spiral-bound pocket prescribing tools from APEA!

View key prescribing principles and dosing information quickly — no technology needed!

Amelie's Antibiotic Cards

Get essential facts on classes, pathogens and medication choices

Pediatric Antibiotic Gide

Never calculate a dose again! Displays the correct dose and concentration by weight

Topical Steroid Prescribing Guide

Provides a diagram of dosing areas, a dosage chart, and a list of topical steroids by potency, available quantity and vehicle

Pharmacology Resources

Build confidence in your prescribing with pharmacology resources from APEA!

Pharm in a Flash

Flash cards to build knowledge with repetition

MyQBank Prescribing

Online access to thousands of prescribing questions

Video or Audio Lectures

Multiple pharmacology topics viewable in the APEA CE Library

PharmBytes

Lectures viewable on the APEA YouTube channel: Always **FREE**

Amelie's Antibiotic Cards

Key concepts in a concise presentation

Pediatric Antibiotic Guide

Dose and concentration by weight

Topical Steroid Prescribing Guide

Potency, quantity and vehicle information

Faculty Resources

APEA has developed exams, learning resources, and remediation tools to help nurse practitioner faculty prepare students for success.

Check out our faculty page at www.apea.com to find resources for your program and curriculum.

Personalized Attention

University and Faculty Consultant Betty Vicknair, APRN, MSN, PNP, is available for personal consultation and guidance.
