CHAMBERLAIN
UNIVERSITY
COLLEGE of HEALTH
PROFESSIONS

The mission of the Chamberlain MPH degree program is to educate, empower, and embolden public health professionals who advance the health of people, families, communities and nations.

The hallmarks of the program include:

- Community empowerment
- Collaboration and team effort
- Continuing professional education opportunities
- Translation of evidence-based research and knowledge through research-to-practice applications

Our goal is to graduate high quality public health practice professionals who provide compassionate and socially-just public health interventions to meet the common good of global society.

The Master of Public Health is a generalist graduate degree program designed to prepare you to become a public health practitioner who works with communities and populations throughout the world to promote healthy living and prevent community health problems such as disease, poverty, health access disparities and violence.

We strive to build a culture of health, equipping extraordinary health professionals with the values, behaviors and knowledge base required not only to succeed, but to drive healthcare forward.

The MPH coursework provides a scientific and practical base for public health practice. Coursework includes:

- **Quantitative methods in public health (biostatistics)**
- **Epidemiology**
- **Leadership**
- **Healthcare policy**
- **Community activism and program development**
- **Behavioral and social aspects of public health (the social determinants of health)**
- **Environmental health**
- **Cultural competency and global health**

Through the integration of education, service, workforce development and scholarly activities, Chamberlain's MPH degree program is a competency-focused curriculum that emphasizes collaboration with partners and communities to promote the health of the public at regional, national and international levels.

PUBLIC HEALTH PROFESSIONS MAY INCLUDE:

- | | | | |
|---|---|------------------------------|----------------------------|
| • Health officer | • Public health information officer | • Global health professional | • Biostatistician |

MASTER OF PUBLIC HEALTH (MPH) DEGREE PROGRAM ADMISSION REQUIREMENTS

Prospective MPH degree students must complete an application for admission consideration and interview with a Chamberlain admission representative. Requirements for admission to Chamberlain and the MPH degree program include:

- A degree at the bachelor's level or higher from an institution accredited by either a regional accrediting agency or an agency recognized by the Council for Higher Education Accreditation (CHEA). Degrees obtained from non-U.S. schools will be considered based on evaluation of transcripts by a National Association of Credential Evaluation Services, Inc. (NACES) approved evaluating agency
- A minimum undergraduate cumulative grade point average (CGPA) of 3.0 on a 4.0 scale **or**
- A minimum cumulative grade point average (CGPA) of 3.0 on a 4.0 scale based on 9 or more semester hours of graduate coursework.

The competency-focused curriculum is used to educate practitioners to collaborate with partners and communities to promote the health of the public at regional, national and international levels through the integration of education, service, workforce development and scholarly activities.

PUBLIC HEALTH APPLIED PRACTICE EXPERIENCE REQUIREMENTS

The applied practice experience, a final requirement for students obtaining the MPH degree, provides students the opportunity to synthesize and apply concepts learned in their coursework to resolving real-life public health problems and situations in public health practice. This requirement includes 240 contact hours of applied practice experience with an accompanying integrative learning experience course over the last two sessions of the program.

Chamberlain also offers Post-Baccalaureate Public Health Certificate programs. For more information, visit chamberlain.edu/mphcertificates.
