

What inspires your life can transform your career.

Bring your passion to a team that's reinventing health care.

A world of Advanced Practice Clinician roles.

At Optum, we refuse to limit what our advanced practice clinicians can do. It takes expansive thinking and imagination to redefine where and how people like you can best help people in need. Help us chart a new course for the profession in one of these areas:

- **Complex Care** - Working in long-term care or transitional settings, you will manage patient care to help resolve issues and avoid unnecessary hospitalizations for patients presenting complex/multiple medical conditions. Roles may include NP, Clinical Advisor or Clinical Team Lead.
- **Local Care Delivery** – You'll care for patients in clinics, urgent care, nursing facilities, members' homes and community centers. This involves hands-on case management, communication with providers and family members and charting.
- **HouseCalls** – You will call on new members to perform physical assessment and establish care plans and teams. We also revisit existing members to perform annual check-ups. Seeing patients in their homes enables a richer level of diagnostic and lifestyle guidance.

Reach your professional potential.

As an Advanced Practice Clinician, you've worked hard to reach the highest level of the nursing profession. You deserve to work where your exceptional skills, knowledge and experience are valued, empowered and optimized.

Enjoy all this and more with Optum. As a part of UnitedHealth Group's family of businesses, we elevate compassion, inspire collaboration, and deliver proactive problem solving. And we seek advanced practice nursing professionals who share our vision for outstanding, innovative care. We always have a place for those with the talent and can-do attitude to positively impact lives.

A wealth of professional advantages.

We're committed to rewarding advanced practice clinicians for their exceptional abilities and contributions. We provide:

- Tremendous career mobility options and growth potential
- Valuable connections with other clinical leaders
- A strong voice within the organization and beyond
- The resources and support to provide the finest care
- Exceptional work-life balance
- Competitive compensation and benefits

A culture of clinical advancement.

At Optum, we are committed to unleashing the power of clinicians to improve the holistic health of those we serve. Our Center for Clinical Advancement is vital to living out this vision. Through a full range of education, advocacy and engagement initiatives, we're empowering clinicians to take their practice – and the health of our communities – to a higher level.

Additional incentives for consistent excellence.

We believe top performers should be recognized and rewarded for continually elevating our customer experience. QVC is our performance incentive program that compensates you for your customer-centric focus with generous, frequent payouts. It's one of the many ways we live out our mission to help people live healthier lives while making the health system work better for everyone.

Find more purpose. Make a greater impact.

Every day, we turn to our advanced practice clinicians to help make a significant difference in elevating care. In return, we will provide you with the flexibility, autonomy and physician collaboration and support to be a part of the solutions that are truly helping people live healthier lives and helping to make the health system work better for everyone. It's an exciting time and a genuine opportunity to do **your life's best work.**SM
