

# DOCTOR OF NURSING PRACTICE (DNP) PROGRAM

THE UNIVERSITY  
OF TAMPA

The new post-master's Doctor of Nursing Practice degree continues a **tradition of excellence** in nursing education at The University of Tampa. The program is designed for working clinical nurse practitioners living in Florida. This convenient, **online program** consists of 30 credit hours spread over six semesters.

With a focus on **real-world relevancy**, the program prepares DNP students to design, implement and evaluate evidence-based disease management care and to coordinate acute and chronic illness care for individuals and populations. The program's online format, with only three required visits to campus, allows students to continue their full-time careers in their clinical practice. UT nursing faculty are respected researchers and practitioners, and are committed to students' educational mastery and career advancement.

**UT is ranked a #1 nursing program in Florida and the U.S.**

By the National Council of State Boards of Nursing  
NCLEX Program Reports for 2018-2019.

## Advanced-level courses include:

- Health Policy and Advocacy
- Health Care Leadership and Management
- Clinical Epidemiology
- Genomics
- Health Care Informatics and Information Systems
- Research Translation

DNP students also complete 500 individual practicum hours working on a clinical change project to benefit their own practice.

## UT's DNP program gives you the skills to advance your career and:

- Become a leader among nurse practitioners
- Contribute to the development of health care policy
- Accelerate the implementation of clinical research
- Address today's health care challenges by putting solutions into practice
- Manage interdisciplinary clinical teams
- Qualify for leadership roles in hospital administration
- Gain tenure-track teaching positions
- Prepare for evolving health care environments

**Doctorate-prepared nurses are increasingly in demand. Don't get left behind!**
