Preface

This manual is designed to assist the lawyer that is interested in the juvenile practice of law. All of us that have worked on this book are currently practicing or recently practiced in the juvenile law arena in Maricopa County. Please be aware that we are practitioners in a field that is constantly changing and ever evolving. Laws, cases and rules referenced in this manual should be reviewed and researched before you use them in a motion or pleading before any court. We hope this book assists you with understanding the juvenile system and the court process involved. The lawyers that worked on this book are hopeful that this book will assist the legal community with improving and enriching the current practice of juvenile law.
